# Company Chassis Number

This document describes new features - available datetime and chassis location.
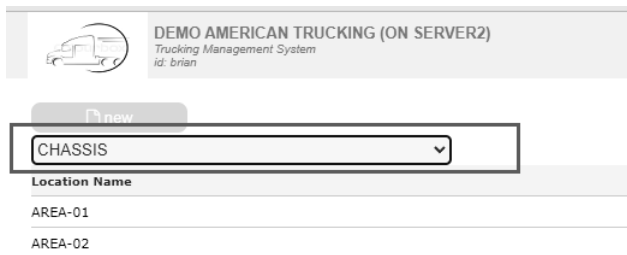

A/   **Chassis Location**

Before you can assign chassis location to a company chassis, you have to setup your list of chassis locations. To do that, you can input them in the Locations function.

From Master Tables Menu -> select "Locations"

You can filter you location list by choosing "CHASSIS" in the filtering option.

A1/   To add new chassis location

Click "New" button

Input location name and address information (if any).

IMPORTANT: Make sure you choose "CHASSIS" as the location type before saving.

B/   Company Chassis Number

Once you have setup your chassis locations, you can now assign location and input available datetime for your desired chassis.

Select "Company Chassis" under the "Operation Master Tables" menu.

Noted that Chassis location and Available date is now shown in the chassis number list.

B1/   Input Chassis location and available datetime

Choose chassis location from the list and input available datetime if any.
