

COMPANY CHASSIS NUMBER

This document describes how to manually change status for a company chassis number.

READ THIS BEFORE YOU START

Following describes how a company chassis number works in the system.

Chassis Number Status

Company chassis number can be one of the following status, it describes how status changes accordingly.

AVAILABLE

When a NEW company chassis number is added to the system, AVAILABLE status will be automatically assigned. AVAILABLE status means the chassis number can be selected and assigned to a shipment record.

IN USE/ CURRENTLY OCCUPIED

When a company chassis number is assigned to a shipment record, its status will be automatically changed to OCCUPIED.

DISABLED

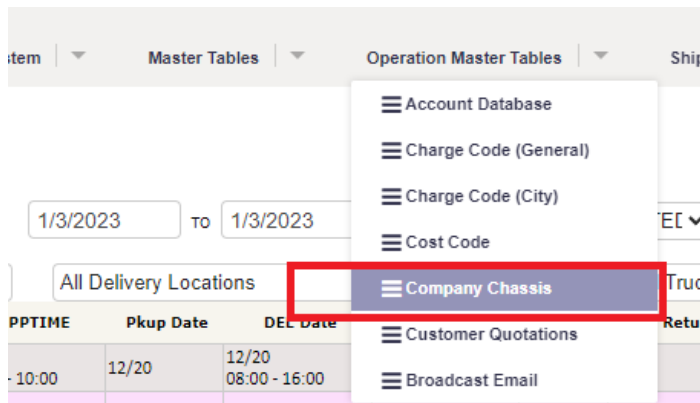

When a company chassis number status is changed to DISABLED, it means it is hidden from selection list on shipment record page.

How Status Changes

Event	Status will be
New company chassis number	AVAILABLE
CONTAINER RETURNED status is added to the assigned shipment record (container)	
Manually release the chassis number	
Newly assigned to shipment record (container)	IN USE/ CURRENTLY OCCUPIED
Manually disable the chassis number	DISABLED

A/ Access Company Chassis

To access company chassis, select menu-> Operation Master Tables -> Company Chassis

B/ Chassis Number Dashboard
